

22nd New Zealand Fungal Foray
Mycology Colloquium 2008 Program

Wednesday 14 May 2008
St Margaret's College, University of Otago
333 Leith Street, Dunedin.
Contact: ann-marie.chamberlain@otago.ac.nz

9:30-10:00	Ian Hall	The downs and ups of cultivating edible mycorrhizal mushrooms in New Zealand.	truffle1@ihug.co.nz
10:00 – 10:30	Ross Beever	<i>Phytophthora</i> taxon Agathis	beeverr@landcareresearch.co.nz
10:30-11:00		Morning tea	
11:00 – 11:30	Jerry Cooper	New Zealand Biodiversity Recording Network (NZBRN)	cooperj@landcareresearch.co.nz
11:30-12:00	Genevieve Gates	A report on the XVth Congress of European Mycologists in St. Petersburg Russia and the 18th Nordic Mycological Congress in Denmark 2007	genevieve.gates@utas.edu.au
12:00-12:30	Peter Johnston	The causes and consequences of changes to New Zealand's fungal biota	johnstonp@landcareresearch.co.nz
12:30-1:30		Lunch	
1:30-2:00	Toni Atkinson	From the Land of the Long White Cloud to the Great Smoky Mountains: New Zealand and Appalachian diversity among woody decay pyrenomycetes	toni.atkinson@botany.otago.ac.nz
2:00-2:30	Nick Singers	Optimising threatened species project & the relevance to fungi	nsingers@doc.govt.nz
2:30-3:00	Anna Hopkins	Using native fungi for revegetation in the Western Australian wheatbelt	Anna.Hopkins@scionresearch.com
3:00-3:30		Afternoon tea	
3:30 - 4:00	Ian Dickie	Two reports from the hyphal front: ectomycorrhizal communities and wood decay fungi	DickieI@landcareresearch.co.nz
4:00-4:30	Steven Stephenson	Ecological and biogeographical distribution patterns of mxyomycetes in NZ	slsteph@uark.edu
